## Home Libraries

---

When applying for a library card you will be asked to select your home library.

### ***What is a home library?***

A home library is the library branch that you would like the online search catalogue to default to. This means that when searching for materials to check out, the catalogue will search the availability at that branch first.

This library will also be the branch that the online library systems defaults to for delivery of hold materials.

Note: While you are required to select a home library, as a cardholder you will have access to the materials available at all Fulton County Libraries.

***Which branch should I pick for my home library?***

Typically, cardholders will select the branch nearest to their Fulton County address as their home library. However, you can choose any of the branches.

Temporary cards grant applicants immediate access to any of the online resources available at the Fulton County Library.

These cards cannot be used to access physical materials or spaces, and will expire 30 days after the application is submitted. They cannot be renewed, and should instead be replaced with a permanent library card.

### ***Permanent Library Cards***

Permanent library cards will grant access to all library materials and services.

Most permanent cards are valid for 2 years. Certain cards, such as those distributed by our library partners at Georgia Tech, expire after just one year.
